

Literacy

Children will explore fiction, non-fiction, and poetry throughout the theme of World War II. They will read and discuss Carrie's War, explore how the author uses historical details to place the book in time and debate the right and wrongs of Carrie's actions. They will research the Blitz and evacuations, writing an information poster for children. They will investigate first-hand accounts of evacuation and the European children's experiences and read parts of The Diary of a Young Girl by Anne Frank and finally plan and write their own wartime stories.

Summer Term

Curriculum Advice Leaflet

Mrs Hawkins

Mrs Olver

PE

We will be learning the following skills using a variety of sports - **sprinting** pace, jumping, throwing, batting stroke, fielding, and mountain biking technique & control. We will also be discussing how the values from our Toolkit for Learning; Love & Laughter have a role to play in physical activity.

Science

This term children will explore "Looking after the Environment" This unit will further develop children's working scientific skills. Children will discover: the core concepts - what the climate is, how it changes, the difference between a synthetic and natural environment and where different types of animals live.

PSHE

Children will explore and discuss loyalty, honour and chivalry- and what these might mean today. This term children will be learning how to make and keep a healthy relationship with their peers. They will understand and respect the changes that they see in themselves and other people.

Numeracy

This term children will:

- Measure angles accurately using a protractor.
- Calculate angles to find a missing angle.
- Recognise that opposite angles share a vertex.
- Introduce hatch marks for equal lengths.
- Draw shapes accurately.
- Draw shape accurately using a protractor.
- Identify 3- dimensional shapes from nets.
- Read and interpret line graphs.
- Illustrate and name parts of a circle including radius, diameter, and circumference.
- Calculate the mean as an average.

Computing

Children will modify and adjust objects in a 3D space and recognise the difference when working with 3D objects in comparison to 2D shapes.

SATs Revision

Children will be preparing for their SATs this term. If you would like to do some SATs revision with your child, at home, then previous SATs material is available. Please come and ask Mrs Hawkins if you would like any.

Home Challenge

Home challenge this half term can be anything on any of the topics we have covered this half term. Using what they have learnt as a starting point, we are challenging all the children to create something to share with the whole class on Wednesday June the 26th. Whatever they choose to do, it should add to what they have learnt in some way. This could be a poem, a story, a presentation, a dance, a song, in fact, it could be in any format they like! Upload the finished challenge onto Google Classroom assignment, or bring completed project into school so we can share all the children's amazing work with the whole class! Their spellings will be in their spelling jotter each week, also available on Spelling Shed.

**TOGETHER
WE CAN DO IT!**
